Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "bottom" free any more than a merchant can lose credit for advertising "bottom" free. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

We Knew We Had a Good Thing in the Stock of Goods

We bought by electric light a few days since. There is so much clap-trap clothing advertisements in vogue just now that we refrained from saying very much about the purchases. We simply called the public's attention to it by telling them to look at the display of these goods in our windows and note the prices on them. We knew we would sell some of them. The warm weather left a doubt as to selling as great many now. The doubt is dispelled. Since the day we opened this purchase and placed them in our windows our store has been crowded with customers anxious to secure these unheard-of bargains. We advise our friends who contemplate buying Fall Suits and Overcoats not to let this opportunity slip. It is only once in a long time that circumstances arise that enable merchants to secure first-class clothing that can be sold for less money than the cheaply gotten-up stuff that is flooding the market just now.

Our \$2, \$2.50 and \$3 Custom-Made

SHOES!

That we warrant to give satisfaction and cheerfully return the money if they do not have quickly sprung into favor. Out of town mail orders, of which we receive many, receive prompt attention. Look at our shoe windows; none like them in the state.

The burning of the Anchor Line steamer Bluff City makes six big steamers which that company has lost in less than two years. The City of Chester and City of Monroe were wrecked in the cyclone, the City of Hickman struck a snag and was lost, the Mary Morton and Belle Memphis suffered like fates, and the Bluff City burned a day or two ago. This leaves the line practically only two boats, the Hill City and City of St. Louis, for the City of New Orleans, the only other boat of the line, is badly in need of a new hull.

LIVELY TIME.

There Was an Exciting Scene on the Upper Grade Last Afternoon.

There was an exciting time on the upper grade for a pair of minutes last afternoon.

A gentleman and lady, behind a pair of lively-gaited mules, had driven under the viaduct on their way to the ferry, when the C. and O. Flyer came bowling along.

This exasperated their mulepicks and they started to run, but the gentleman was an expert reinsman and soon had them under control.

The lady was as cool as a defeated candidate, and the crowd that rushed down Market to see a catastrophe were grievously disappointed.

After the incident the party drove on the ferry-boat as unconcerned as if they were going to champagne.

WHAT'S AHEAD!

Back Goodman's Successor in the Post-office Will Be a Colored Man.

In June last there was a Civil Service examination in this city for the position of Clerk in the Mayville Postoffice.

The entries were Mr. William Henry Wadsworth, son of Police Judge Wadsworth, and Messrs. Franklin H. Gray and Leander A. Davis.

The two latter are colored men.

Yesterday Postmaster Chenoweth was notified by the Civil Service Commission of the result of the examination.

Of the class, Mr. Davis was the only one who obtained the required per cent.

Thus the situation is narrowed down to this:

If Mr. Goodman should take a notion to resign, the only man whom the Incoming Postmaster can put in his place is a colored man!

This is greatly to the credit of the colored man; but it may cause a kick from some of the Civil Service reformers.

However, THE LEDGER is for the rigid enforcement of the law.

GREAT IS THE GAME!

And the "Lingo" is Simply "Out of Sight," as You Will See.

A chap went to a football fight with a friend who was a humpback, each paying his quarter for admission.

The latter knew no more about the "game" than the average amateur, and when the scrimmage began to get warm he started on a dead run to get out of harm's way.

One of the players caught sight of him, and yelled at the top of his voice—

"There he goes with the ball under his sweater," and in an instant they were all chasing the little fellow as fast as they could go.

Frightened nearly out of his wits, the little cripple ran at full speed, but was last being overtaken when the Captain of one of the teams suddenly discovered the mistake and his signal to stop brought the two teams up short. Calling to one of his men, who happened to be the quarter back, the Captain told him to go over and speak to the half back and have him to tell the full back to apologize and to give the humpback his quarter back.

The full back couldn't make change, so he gave the quarter back a half back to give to the humpback, who, to square it, gave the quarter back a quarter back, which he handed to the half back, and then the humpback took the quarter back and the full back back of the back stop to tell the full back how it happened and to take a drink, and by the time he had explained it they were all full backs and were brought back to town in the patrol.

OUR WASHINGTON MAN.

THE LEDGER'S SPECIAL LETTER FROM THE CAPITAL.

Special Correspondence Public Ledger.
WASHINGTON, November 19th, 1897.

The continued publication in Democratic newspapers of statements indicating that certain members elected to the Ohio Legislature are likely to refuse to vote for Senator Hanna, after instructions of state and county conventions in his behalf, is leading members of Congress, irrespective of party, to some frank expressions upon this subject.

Senator Mason of Illinois said:

"I do not believe there is perfidy enough to induce one Republican to vote against Mr. Hanna for Senator. Every Republican in the Legislature is instructed to vote for him, and to violate that instruction would be such a betrayal of party trust as to put the betrayer outside the pale of civilized politics. It would be exactly the same as if he had been sent to the Electoral College to vote for McKinley, and then, under some pretense of personal disappointment, had voted for Bryan. I am proud, as an American citizen, to say that no such person has ever been found in American history on either side or in any party, and they will not find him in Ohio."

Senator Burrows said:

"I give no credence whatever to the newspaper reports from Ohio that the Republican Legislature will not select and return Senator Hanna to the United States Senate. First, he was indorsed unanimously by the State Convention, which amounts tacitly to an instruction to the Legislature from the highest possible political organization in the state. Hanna led the fight for the party for the whole ticket, and won a high place in the affections of the people of Ohio and of the country for his splendid campaign, and I cannot believe that any Republican member of the Legislature will disobey the instructions of the party or fail to recognize the splendid service of the Senator. I am confident he will be re-elected by the solid Republican vote. Any other result would overthrow the Republican party in Ohio for a quarter of a century and do incalculable harm to the party at large."

Senator Fairbanks said:

"I cannot believe there is any foundation in fact for the report that there is to be any opposition within the Republican party to the return of Senator Hanna to the Senate. His indorsement by legislative conventions and by the State Convention and by the Republican press of the state was unqualified and enthusiastic. He has made a campaign characterized by exceptional bitterness on the part of the opposition, and in all fairness he should now enjoy the fruits of the victory he has won."

WE'RE FOR AMERICA! AMERICANS!

"The best way to get rid of a bad
law is to enforce it."—General Grant.

Therefore THE LEDGER favors the
rigid enforcement of the Civil Service
Law.

He can't reconcile himself to any-
thing that is American. Mr. THOMAS
F. BAYARD, whom Minister CLEVELAND
sent as United States Minister to En-
gland, and who showed his Anglioma-
nical proclivities while there to the
utter disgust of all true Americans, has
entered the employ of his British Free-
trade friends. He has located in New
York as representative of an English
tintype factory, at a salary of \$25,000
a year for four years.

SILVER has declined 20 per cent. in
the last year. How does this affect
the people of Mexico? Very favorably for
those who have debts to pay, but very
unfavorably for those to whom money is
due. If a man loaned another \$100 in
Mexico a year ago, all he will receive
now in payment is \$80, and there is no
way by which he can collect the other
\$20. He will receive in payment one
hundred Mexican dollars, the same
number that he loaned, but they will be
worth just four-fifths as much as when
he loaned them. This shows the practi-
cal operation of the silver standard.

CONGRESSMAN HOPKINS of Illinois, in
a recent talk about Cuba, expressed the
opinion that "unless we are absolutely
compelled to interfere from motives of
humanity, it will be better for us to
maintain an absolute neutrality." The
fact that Mr. HOPKINS's expressions on
this subject are being generally com-
mended by the newspapers not only of
his own state, but elsewhere, shows a
marked change in public sentiment,
which a few months ago would have
rejected and resented so conservative a
view of the duty of the United States
in the Cuban matter as thus expressed.

This growing demand in England
and other foreign countries for Ameri-
can manufactures is commented on by
The London Economist, which says, in
a recent issue, that England is becom-
ing a large purchaser of American
manufactures, especially in iron and
steel lines, and that English manufac-
turers must cheapen their cost of pro-
duction if they are to hold their ground
against the American competitor. And
all this is happening under the Dingley
Law, of which the Free-traders said,
three months ago, that its effect would
be to close foreign markets to American
commerce and especially manufactures.

MARYLAND, by her recent Republican
victory, now assumes a permanent po-
sition in the Republican column. In
three successive years—'95, '96, '97—the
Republicans have, in hard-fought cam-
paigns on both sides, carried the state
by good majorities, so that many lead-
ing politicians of both parties now look
upon Maryland as a safe Republican
state. This is another evidence of the
steady growth of sentiment in favor of
Republican principles in the South, as
well as the North, the Republican rep-
resentation from the South in the
House having grown from year to year
until it is now larger than in any
previous year in the history of the
country.

WASHINGTON, Nov. 23.—In his first
annual report, Secretary Alger makes
many recommendations for the better-
ment of the administration of the war
department, based upon the conclu-
sions of his subordinate officers. He
asks favorable consideration for the
proposition to add two regiments to
the artillery branch, pointing to the
valuable fortifications now being
erected, which he says should not be
manned by a corporate guard. He
says of Alaska that as many as
100,000 people will be gathered there
next year, and the creation of addi-
tional military reservations, like that
of St. Michael's, may be the best means
to meet the problem. A host for the
patrol of the Yukon is also asked for,
as well as increased pay for the en-
listed men serving in Alaska.

Secretary Alger recommends the re-
vival of the grade of lieutenant gen-
eral, saying that all the great nations
give their officers much higher ranks
than does the United States.

He indorses the recommendation of
the superintendent of the military
academy that the number of students
at West Point be increased by allow-
ing each senator to nominate a cadet.

As an alternative he suggests that the
president be authorized to appoint ten
cadets at large each year.

Favorable comment is made upon
the work of the military colleges of
the country, but it is suggested that
the law be amended so as to authorize
details of army officers only to such
colleges as have at least 150 pupils
actually present.

Attention is called to the need of a
proper system of military records, and
over military reservations and of a hall
of records for the storage of official pa-
pers. The estimate for army trans-
portation is increased by \$100,000 to
provide means for moving heavy
ordnance. To provide for the new posts
needed on the coast an estimate of
\$2,000,000 is submitted.

Until recently the hospital at Hot
Springs was open only to soldiers of
the regular army, but Secretary Alger
has just amended the regulations so as
to authorize the admission of suitable
cases among the veterans of the late
war.

In the opinion of the secretary an in-
crease in the engineer corps in officers
and enlisted men is called for, and he
points to the immense value and ex-
tent of the work now in the hands of
this corps, and contends that it could
be better supervised and improved in
quantity and quality by the assign-
ment of more officers, which is now im-
possible.

Secretary Alger transmits without
reduction the estimate of the chief of
engineers for the next fiscal year,
amounting to \$2,000,000, more than
double the appointments for the cur-
rent year. He says these are largely
in excess of what they should be at a
time when the demand upon the treas-
ury are as great as now, therefore he
recommends a large reduction. In
justice to the chief of engineers, Sec-
retary Alger says that these estimates
were made by his own direction, that
the facts might be placed before congress,
showing what the actual situation could
be were all the requirements
of the river and harbor laws
complied with, but he adds the fact
that the outstanding contracts for
river and harbor work will require
an expenditure of over \$17,
000,000. But he states that the
secretary indorses the project for the
construction of the ship canal connect-
ing Lakes Huron and Washington
with the Gulf of Mexico, but states that
active operations can not be com-
menced for some time, as the right of
way has not yet been secured.

Secretary Alger especially comments
for patriotism, generosity and seal,
Col. Buffington and Capt. Crozier, the
inventors of the disappearing gun car-
riage, who generously donated the in-
vention to the government.

The report closes with the recom-
mendation that provision be made for
the erection in Washington of a statue
to Gen. Grant.

The estimates for the next fiscal year
aggregate \$90,558,445, as against \$90,
885,417, the amount of the appropria-
tions for the current year. The prin-

HON. W. GODFREY HUNTER.

President McKinley Congratulated on His Happy Selection For Minister to Guatemala and Honduras—Brief Sketch of Dr. Hunter's Political Career.

Lexington Leader.

The appointment of Hon. W. Godfrey Hunter as Envoy Extraordinary and Minister Plenipotentiary to Guatemala and Honduras was one of the most popular acts of President McKinley's Administration, so far as the distribution of official favors is concerned.

No man has given more loyal service or made greater sacrifice for the Republican party in Kentucky than Dr. Hunter, and to him is conceded a large part of the credit for the Republican victories of 1894-5-6 in the old Commonwealth.

Dr. Hunter's defeat for United States Senator by factional animosity only strengthened him with the masses of the Republican party, and Senator Deboe did a graceful and popular thing in asking that the chief diplomatic appointment allotted to Kentucky be given to the victorious chairman of the great campaign of 1895.

A goodly company of Kentuckians happened together in Washington on the day that Dr. Hunter's appointment was gazetted, called there on various errands, and the suggestion was instantly adopted that the party call in a body on the President the following morning and extend thanks for the handsome compliment paid Dr. Hunter and the Republicans of Kentucky.

Senator Deboe was the spokesman of the occasion, and after presenting the delegation to the President he gracefully acknowledged the appointment of Dr. Hunter and said it met with universal approval. Others who accompanied the Senator joined in expressions of thanks and assured the President that the Republicans of Kentucky were gratified that such a signal honor had been paid the ex-Congressman from the Third District.

President McKinley was in his happiest mood and assured the Kentucky visitors that it gave him great pleasure to make the appointment. "I could not forget such a splendid old warhorse as Dr. Hunter," said the President, in thanking the Kentuckians for the courtesy of the call and bidding them goodbye.

upon the appointment of Dr. Hunter as Minister to Guatemala and Honduras publishes a brief sketch and very just estimate of his political career, which is of interest in this connection. It is as follows:

Dr. W. Godfrey Hunter of Kentucky, President McKinley's appointee as Envoy Extraordinary and Minister Plenipotentiary to Guatemala and Honduras, is 50 years old and one of the leaders of the Republican party in this state. He served as a member of the Fifth and Fifty-fourth Congresses and had given notice that he would make a contest for a seat in the present House, claiming that he had been elected. He was the candidate of his party for the Senatorship, but, after a long struggle, gave way to Senator Deboe, a few Republicans having refused to support Dr. Hunter. He was one of the famous 206 who stood by Gen. Grant in the National Convention of 1880, and was a member of the Convention of 1892, which renominated Gen. Harrison, and the Convention of 1896 which nominated Mark McKinley. Before coming to Congress he served several terms in the Kentucky Legislature.

Dr. Hunter is a gentleman of excellent statement. His service in Congress was marked by ability of a high order, and as a stalwart Republican he is held in esteem by party men generally. Although falling to secure the Kentucky Senatorship himself, his generosity in the exciting contest was no small factor in the result—the election of a Republican to succeed Senator Blackburn. His selection for the Mission to Guatemala and Honduras is an evidence of the Administration's confidence in and regard for him. Having led an active political life for several years, the less exacting role of diplomat in Guatemala—a charming, healthful country—will be in the nature of rest and recreation, and he stands in need, and which prompted his acceptance of the appointment. He probably will not start on his post of duty until early in December after Congress convenes. His prompt confirmation is regarded as a foregone conclusion.

KENTUCKY KILLINGS.

The Brothers Shot the Murderer of Harlan Brown, Thence to the West.
JACKSON, Ky., Nov. 22.—James and Jud Frazier, brothers, became involved early Sunday morning in a difficulty, which arose over some fodder, and Jud seized a Winchester rifle and shot James through the heart, killing him instantly.

The two brothers lived together on a farm, which is their father's, eight miles from town, and the difficulty occurred in the stable lot. Jas. Frazier, during a political meeting here last August, shot Harlan Brown's brains out on the public square without the slightest provocation, it was said, and leisurely walked out of town with his gun in hand unmolested.

Brown's wife was in a delicate condition, and fearing the sight of her dead husband would kill her, the body was laid out in the courthouse, where it remained until the next day, when it was buried. The slayer has been evading arrest until his own death Sunday.
